What's Included

- (1) Accel Compact Power Source 6
- (1) User Manual
- (1) 15V @1000 mA adaptor
- (6) Negative Center Output Cables

Introduction:

Your Accel "Compact Power Source 6", Six Output Power Supply is designed with a high efficiency transformer. Each output is fully regulated and filtered with over voltage protection. This power supply mounts easily on top or below most pedal boards with the supplied 3M dual lock mounting system.

The Power Source 6, powers 9V effects pedals.

Outputs 1-5: 9V@ 100 mA powers the majority of the pedals on the market.

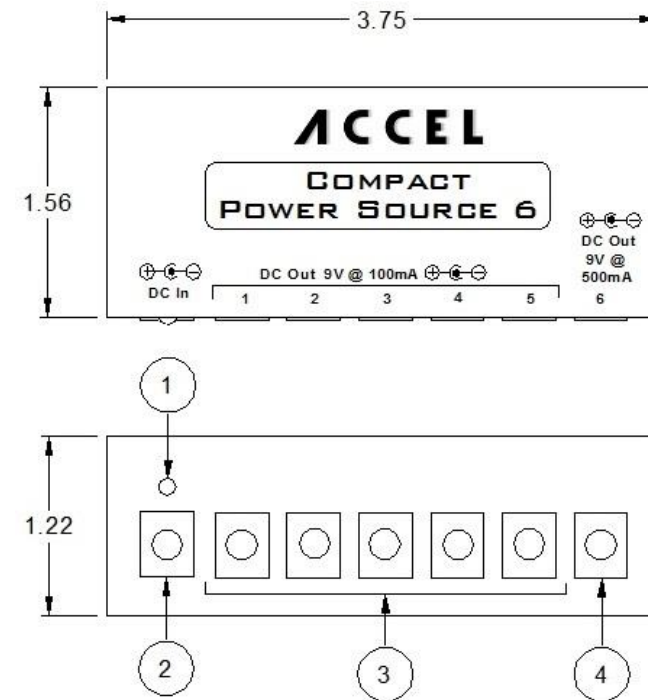

Output 6: 9V @ 500mA powers the 9V pedals and switchers that require more mA's

Read all warnings, cautions and operating instructions before using this product.

**Read all Warnings and Cautions before operating your
Compact Power Source 6 Power Supply**

1. Keep these instructions – The safety and operating instructions should be retained for future reference.
2. All warnings, cautions and instructions should be adhered too for safe operation of your Compact Power Source 6 Power Supply.
3. Follow all operating and use instructions for safe operation of this unit.
4. **WARNING!!!** The lightning flash with arrowhead symbol within an equilateral triangle is intended to Alert the user to the presence of non-insulated “dangerous voltage” within the product’s enclosure that may be of sufficient magnitude to constitute a risk of electric shock.
5. **WARNING!!!** To reduce the risk of fire or electric shock, do not expose this power supply to rain or Moisture. The unit should not be exposed to liquids of any kind. Any objects or containers filled with liquids, such as drinks or beverages shall not be placed on top of the unit.
6. **CAUTION!!!** The exclamation with arrowhead symbol within an equilateral triangle is intended to alert the users to the risk of damage to the Compact Power Source 6 power supply if cautionary instructions are not followed.
7. **CAUTION!!!** To prevent risk of overheating or damage to the Compact Power Source 6 power supply. **Do Not Block any ventilation openings!** The ventilation should not be impeded by covering the ventilation openings with items such as, tape, fabric, Velcro or any potentially flammable material.
8. **CAUTION!!!** To prevent risk of overheating or damage to the Compact Power Source 6 power supply. Mount per the Compact Power Source 6 Mounting Instructions!
9. Clean only with a dry cloth.
10. Do not install near any heat sources that produce heat.
11. Protect the power cord from being walked on or pinched. Especially near the plugs, convenience receptacles, and at the point where they exit from the unit.
12. Follow all instructions and recommendations regarding attachments/accessories specified by the manufacturer.
13. Only use this unit as prescribed and specified by the manufacturer to power effects pedals.
14. Unplug the unit during lightning storms or when unused for long periods of time.
15. Refer all servicing to qualified personnel. Service is required when the power supply has been damaged in any way – such as power supply cord or plugs damage; if any liquid or foreign objects have gotten inside the unit; if it has been exposed to rain or moisture; has been dropped; or does not otherwise operate normally.

Component Description and Dimensional Drawing

- 1) Green AC power indicator
- 2) AC 15V Input (15V adapter included)
- 3) DC Outputs (9V @100mA)
- 4) DC Output (9V @ 500mA)

Power Supply Mounting

The Compact Power Source 6 can mounted with the supplied 3M Dual Lock adhesive back re closable fastener strips. (Once locked in place you will need to pull the power supply at an angle to disengage).
